Mission Statement

Mission: The State of Georgia established the Georgia World Congress Center Authority to develop and operate the Georgia World Congress Center, the Georgia Dome, Centennial Olympic Park, and related facilities. These facilities exist for the primary purpose of promoting and facilitating events and activities that generate economic benefit to the citizens of the State of Georgia and the City of Atlanta, as well as enhancing the overall quality of life for every Georgian.

Vision: Our vision is to constantly earn our reputation as one of the world's finest convention, sports and entertainment venues. Every day we exemplify our steadfast commitment to excellence in our expertise, efficiency and quality of service. Our vision is to lead our industry through innovation; to operate successfully in an ethical manner; to satisfy our customers' expectations with motivated, service-oriented employees; to provide a safe, clean environment; and to foster both the personal and professional growth of our people.

Values: To achieve our vision, we make our customers the focus of everything we do. We take pride in providing friendly and courteous service to our guests and customers. We strive constantly to improve productivity and to promote the best interests of the Georgia World Congress Center, the Georgia Dome and Centennial Olympic Park.
Director's Report

Fiscal Year 1999 proved to be one of the busiest and best years ever for the Georgia World Congress Center Authority with both the Georgia World Congress Center and the Georgia Dome setting new records for profitability.

We had more than a million out-of-town visitors attend events at the Georgia World Congress Center, Georgia Dome and Centennial Olympic Park. Money they spent while in Atlanta meant $1.3 billion new dollars went directly into the State's economy.

Those new dollars in turn created a ripple effect that produced a $3.2 billion economic impact and generated a total of more than $164 million in tax revenues for the benefit of every Georgian.

We achieved these results by focusing on customer service, by controlling costs, by refurbishing and upgrading our facilities, and by introducing operating efficiencies.

We were pleased that the 1999 Georgia General Assembly approved $220 million for our Phase IV expansion, the largest single brick-and-mortar project ever approved by the State. The addition of 450,000 square feet of exhibit space and more meeting rooms will give us the flexibility and state-of-the-art amenities we need to serve our varied customers' needs and to stay competitive in the new century.

The hundreds of men and women who work for the Authority are proud of our FY 99 financial results, our professional achievements and our service to the citizens of Georgia. We believe we have demonstrated once again – and are committed to doing so in the future — that the Georgia World Congress Center Authority is a world-class hospitality industry leader.

By so doing, we make a significant monetary contribution to Georgia's economy and enhance our State's image — one guest at a time.

Daniel A. Graveline
Executive Director
Georgia World Congress Center Authority
No other convention center in North America outperformed the Georgia World Congress Center in number of events and net operating profits.
Georgia World Congress Center

The Georgia World Congress Center produced a record year in FY 1999. We generated operating revenues of $35,613,820, a net gain of $11,967,903 and new tax revenues of $127,811,603.

The growth of trade show attendance and bookings combined with a sharp increase in corporate events and catering helped us exceed our ambitious projections to the point where no other convention center in North America outperformed the Georgia World Congress Center in number of events and net operating profits.

With the Phase IV addition of 450,000 square feet of exhibit space in 2002 and events now booked as far out as the year 2017, we have the momentum and capability to continue to earn our reputation as one of the nation's most successful, well-utilized and customer-focused convention centers in the country.
GWCC 1999 Revenue Statement

The Georgia World Congress Center's primary sources of operating revenue remained rent, utility services and food service, which combined made up 76% of our operating revenue. We managed to increase total operating revenues approximately 18.5% over FY 98.

Careful management and strict cost controls held operating costs to 7.7% increase without sacrificing the high quality of service our customers have come to expect from us.

The “Other” expense item refers to telecommunications, computers, supplies, equipment leases, travel, printing, and miscellaneous expenses necessary to effectively conduct our business.

“Capital Improvements and Projects” include costs associated with roof refurbishment, five replacement heating-ventilation-air-conditioning units and exterior electronic message signs.

Exhibit Hall Days

The Georgia World Congress Center measures bookings in terms of Exhibit Hall Days for each of three exhibit hall groupings (i.e., Halls A, B and C; Halls D, E and F; Halls G and H). When our Phase IV expansion opens in 2002, we will add a fourth grouping (i.e., Halls J, K, L and M).

One “Exhibit Hall Day” is the equivalent to all space booked in either Halls ABC, Halls DEF or Halls GH for one full day.

“Practical Maximum Bookings” is equivalent to all exhibit hall space booked at capacity for 285 days of the year. This number takes into account national holidays and seasonal slow periods, plus an average loss of three days per month for inherent scheduling gaps between major events.

The opening of Phase IV in Summer 2002 will give the GWCC a competitive advantage in serving current customers and attracting new ones.

Phase IV Expansion

The 1999 Georgia General Assembly approved $220 million to fund construction of the Phase IV expansion of the Georgia World Congress Center.

A Price Waterhouse feasibility study indicated such an expansion would attract 500,000 additional out-of-town visitors, generate $1 billion in economic impact, produce $53 million in new tax revenues, and sustain up to 19,000 new jobs annually in Georgia.

The expansion will include an additional 450,000 square feet of exhibit space, 25 meeting rooms, two lecture halls, a 46,000-square-foot ballroom with a dramatic pre-function space, and an impressive new entrance on the west side of the facility. It will be built along Northside Drive adjacent to existing GWCC exhibit halls D through H.

The use of a construction management team will ensure the most cost-effective approach to this project. It will allow bid packages to be done in stages and tailored to take maximum advantage of market conditions. The construction management method will also allow for greater opportunities for Minority Business Enterprises' participation.

Phase IV will help us meet the demands of shows needing more space as well as offer us new opportunities for hosting multiple shows simultaneously.

Easy access to these new facilities via a landscaped plaza and covered parking will increase the potential for Dome event-related functions, too.

All of this will work to our benefit as we strive to be America's most utilized convention and trade show facility.

Phase IV will open for business the Summer 2002.
Georgia Dome

The Georgia Dome had another terrific year. It set a record net gain of $7,559,071, thanks in large measure to the success of the 1998 National Football Conference Champion Atlanta Falcons and to the National Basketball Association's Atlanta Hawks, who played in the Dome while their new arena was under construction.

In addition to being the Falcons' home field, the Dome continued to host a broad array of events. The following serve as an example of that variety: Chick-fil-A Peach Bowl, McDonald's Heritage Bowl, SEC Football Championship, Holyfield vs. Bean heavyweight boxing championship fight, Supercross, the Fox 97 Ultimate Oldies concert, the Society for the Preservation of Barbershop Quartet Singing, religious rallies, trade shows, and corporate meetings.

Led by such headline events as Super Bowl XXXIV and the Backstreet Boys concert in 2000, the SEC and ACC Men's Basketball Championships, the NCAA Men's Final Four Basketball Championship in 2002 and 2007, and the NCAA Women's Final Four announced this year for 2003, the future holds great promise for our premier sports and entertainment venue in keeping and attracting business.

The Georgia Dome turned in another terrific year with a record net gain of more than $7.5 million.
Dome 1999 Revenue Statement

Total revenues were up 4% in FY 99, with food service and rent enjoying 15.4% and 23.4% respective increases. Fees from executive suite and club seat licenses remained our largest source of operating revenue.

Total expenses stayed at the same level as the previous year, thanks in particular to the $2.7 million drop in debt services realized as a result of our bond refinancing in FY 98.

![Fees from executive suite and club seat licenses remained our largest source of operating revenue.](image-url)

Centennial Olympic Park is a catalyst for the development of neighborhood business, pedestrian traffic and family-friendly events.
Centennial Olympic Park

The State's 21-acre Centennial Olympic Park completed its first full year of operation in FY 1999 and reinforced its multi-purpose role as a permanent legacy of the 1996 Olympic Games, a catalyst for surrounding area development, neighborhood business facilitator, pedestrian traffic enhancer, and family-friendly events venue.

The Park sponsored 38 events such as Park Fest, Fourth of July celebration, Wednesday Wind Down concerts, and Fourth Saturday Family Fun Days, as well as hosting almost 50 events like festivals, corporate receptions, cultural activities, weddings, reunions, and special fundraisers.

These events, plus the normal day-to-day traffic, resulted in more than three million visitors who came to or at least passed through this urban oasis.

Approved this year, a children's playground and the Paralympic Legacy Monument will soon be significant additions to the Park.

While the Park generated $474,362 to apply to its own operating budget, its greatest value will always derive from the intangible benefits it contributes to the strength of our community.

Human Resources Report

Our diverse, professional employees continue to be one of our most valuable assets.

We had 508 full-time employee positions authorized in FY 1999 assigned as follows: 347 with the Georgia World Congress Center, 133 with the Georgia Dome, and 28 with Centennial Olympic Park.

We supplemented our full-time staff with 407,485 hours of part-time help. That is the equivalent of 196 full-time jobs.

Last year 41 of our employees celebrated service milestones that combined represented 340 years of experience. Nine employees completed 15 years. Nine completed ten years. Twenty-three completed five years.

Because our employees' personal and professional development helps keep us competitive, we invested in 70,762 hours of training. Topics ranged from customer service techniques to first aid to computer skills.
