Re: Statnamic Testing for New Stadium Project (NSP)

Project Information: HHRM will be conducting a Statnamic Load Test for a deep foundation drilled pier. This test will last approximately a half second and the immediately surrounding areas may hear a loud sound.

Potential Testing Date: Between Monday, June 16 and Wednesday, June 18, 2014

Time Range of Testing: During the afternoon (1:00 PM until 5:00 PM)

Location: The test will be conducted within on the construction site.

Safety First: This is an active construction site and for safety reasons, HHRM does not encourage spectators. HHRM will notify and coordinate efforts with the Atlanta Police and Fire Departments.
